

Bethel Christian School and Daycare Annual Report
2016

God's goodness! God's goodness has shown itself in so many ways this school year at BCS. Our faculty and staff for both the daycare and school are such a blessing. Diligence and passion to serve the Lord shines through their work.

Our year kicked off with 30 plus volunteers to refresh and prepare classrooms and the buildings for the students to come. Hours of painting, repairs, polishing of floors, and lawn work were done to start the year off with an inviting environment for our students.

BCS currently has 86 students given by the Lord for us to educate, nurture, and spiritually point toward the Lord. Our student body is blessed with a great group of students and our families have been wonderful as well. Our Daycare and Preschool currently has 73 students which are a mix of full and part time children.

The daycare is also running well. Our staff is very committed; caring and investing a great deal into the care of the children as well as the families. It is not unusual to see them putting together meals for families with new babies or to reach out when families are in need. Pray the Lord will use us in their lives.

BCS students have stepped up this year demonstrating leadership in reaching out to the community in sponsoring a penny war and clothing drive to help EUMA meet the needs of their community. The 9th and 10th grade students are assigned to classrooms during an open period in their schedule, they are teacher's assistants and doing a tremendous job. Our teachers can't say enough about their performance. This also places them in a leadership role throughout the school day as they interact with the younger students in a very special relationship that has been very positive.

Several of our Bethel students were involved in taking mission's trips with their church last summer. They have been presenting their trips during chapel. It has been great to hear from them. BCS has also been blessed to have several alumni come to share for chapel this year.

Financially we will be tight this year, we are praying for a very strong Race for Education. In working with the board it is also the hope to be more aggressive in reaching out to our community to locate businesses that will participate with us in the EITC tax program. Pray that God will direct us and provide as He sees fit.

What does BCS need? YOU to partner with us as prayer warriors! Come join the Warrior family in praying for our students; that God will move greatly in the lives of our students and families to hunger after Him.
